Message: The State CIO Annual Meeting will be held at the Cheltenham Youth Facility based on the successful implementation of a Statewide IT Education Project.

DJS schools now have state-of-the-art educational software and computer hardware. As a result of this project students can prepare for the GED, are automatically enrolled in college classes through distance learning upon the completion of high school and can receive employment training in high-growth careers such as desktop publishing, computer maintenance and repair, digital photography, and landscape architecture.

This project has enhanced DJS education programs statewide and will have a tremendous impact on the future of these children.
